

## Interior Fit Out Installers

**Location:** Positions available in Auckland, Waikato, Bay of Plenty, Wellington, Canterbury and Otago

**Status:** Permanent

**Hours:** Full time

**Reporting to:** Foreman or Site Manager

**Hourly Wage:** \$28 - \$35 depending on experience

**Job Purpose:** Construction of non-load bearing interior walls and ceilings in commercial interior fit out projects, to a high standard and ensuring health and safety standards are met

### Depending on experience, duties can include:

- Installing plasterboard (drywall) in conjunction with the site guide
- Building both screw fix and two-way grid ceilings
- Constructing steel stud partitions
- Installing aluminium partitions
- Plastering / drywall setting
- Installing architectural linings and finishing details
- Reviewing and following plans and drawing details
- Ensuring minimum wastage of building materials by accurately planning installation
- Operating trade related electrical tools such as concrete drills, grinders, cut off saws and setting up and using rotating and line lasers

### Skills and experience:

- Ideally 3 years' commercial experience in installing either plasterboard, steel stud walls or suspended ceilings (experience in more than one is highly advantageous)
- Experience using basic hand and power tools
- Understanding of workplace safety including safe lifting and handling procedures

### Competencies:

- Ability to work well in a team
- A strong work ethic
- Ability to work unsupervised
- High level of integrity
- Good standard of physical fitness
- Flexibility
